The walk is suitable for the whole family: it climbs about 2 km, almost entirely on a mule track and bridleway. Start from the parking area near the playground at Santa Lucia and follow via Fumarogo to the end, where you take path N280, passing a group of houses in Osteglio and continuing to Costa del Madrecc. Continue on a mule track that runs almost parallel to road No. 28 and follows it for just 40 metres, then plunges into the pines and firs. After 10 minutes, at Le Motte, the path again crosses the road and continues through meadows and across a ski slope until you reach the well-equipped picnic area near Laghetto delle Libellule, surrounded by pines with a dense undergrowth of wild fruits and mushrooms.

Laghetto delle Libellule This small lake is home to many species of dragonflies, water bugs and alpine newts that live and breed here. There is a picnic area near the lake to allow visitors to observe, discover and quietly approach this delicate ecosystem.
