This easy path allows to admire the wonderful landscape of Bormio valley from above. The starting point is the historic Combo bridge leading to the left to the little Madonna del Sassello church, from wh it is possible to take the trail to Valfurva on the right. In Uzza, cross the bridge leading to the cycle lane on the opposite side of Frodolfo stream until reaching S. Nicolo' church. Just in front of the churchyard, after the provincial road, an uphill one leads to the upper part of Teregus contrada, where the trail that climbs up Uzza valley starts. After two hairpin turns, the first on the right and the second on the left, go straight until the trail crosses the stream. Just outside the valley, the scenic route starts and climbs up over Bormio town, among the woods of larches and pine trees. The indications for Pravasivo locality lead to the Planon dei Laresc area and, then, to the valley of Campello, the stream flowing at the foot of Re'it. Without crossing it, the trail that descends towards Bormio marks the end of the excursion.
